## GROGAN'S

Before you buy Furniture and Carpets for your home just stop and think of the furnishings in different homes you have seen.

There are those where everything is pleasing to the eye. A general color scheme is carried out in different rooms, patterns in the pieces of furniture correspond, drapery effects harmonize with both.

Then there are the homes where the furnishings were picked up at random in an attempt to secure bargains. It's unnecessary to remind you of what these homes resembled. Come here and carry out your ideas. Get just what you want to make your home most attractive and comfortable. There's endless variety from which to choose; there's absolute reliability in the qualities; there's certainty that prices are right, because we mark them in figures you can read.

Your purchases may be charged on open account, without notes or interest. Payments will be divided to make the terms just as easy as you ask.

## CADREY SHIFTS WILL BE MADE

Fifteenth Regiment Soon to Be Sent to the Mexican Border.

FIFTH WILL RELIEVE IT

Second, Recently Returned from the Philippines, Will Take Place of the Tenth at Fort Ethan Allen.

Pursuant to a policy determined upon at the War Department yesterday, the Fifteenth Cavalry, Col. Joseph Garrard, with regimental headquarters at Fort Myer, Va., will be transferred to the Mexican border, with headquarters at Fort Huachuca, Ariz., probably within the next two months.

In the same movement of troops the Fifth Cavalry, which for many years has occupied the Arizona post, will take station at posts now occupied by the Fifteenth Cavalry, with Fort Myer as regimental headquarters, and Fort Sheridan (Ill.) and Leavenworth (Kans.) as squadron posts.

This change does not mean either an increase or a decrease of the number of troops on the Mexican border, and the movement may not take place for several months. The Fifth Cavalry, which will be replaced by the Fifteenth at Fort Huachuca and Apache, Ariz., has been known as one of the crack cavalry regiments, and will bring to Washington many officers known in military circles here.

Maj. Gen. Leonard Wood, Chief of Staff of the army, in announcing the termination of the department to make the changes, yesterday stated that no immediate movement of troops was contemplated and that the plans did not contemplate any change in the assignment of infantry or field artillery bodies now on the Mexican border.

It is the plan of the department to maintain the present status of the troops as long as Mexican conditions seem to warrant, and, if the present status remains unaltered, to move the troops back from the border a few miles to higher ground and put them into winter quarters.

## BERWYN'S AUTO SPEED TRAP CLOSING ON FIVE

Washingtonians Deposit Collateral with Maryland Justice of Peace for Violating Traffic Laws.

Among those caught in the automobile speed trap laid out under direction of Deputy State Automobile Commissioner William G. Ruppel at Berwyn, Md., yesterday was John H. McLean.

He put up \$50 for his appearance before Justice of the Peace Shipley at Berwyn tomorrow morning.

The others that fell into the tolls yesterday were J. W. King, who put up \$1; Arthur H. Holzer, \$10; L. J. Malzer, \$5; and D. A. O'Connor, \$5.

The officials will continue the operation of these traps along the Washington-Baltimore boulevard in an endeavor to stop speeding by motorists on their way to the Laurel races.

Officials are warning those arrested in the last two days that unless they have operating cards an additional charge will be placed upon them.

## ARMY TEST RIDE TODAY.

Fifteen Officers to Begin Ninety-Mile Trip This Morning.

Another of the test rides for army officers stationed in and near Washington will start this morning. There will be fifteen in the party of horsemen and their destination probably will be Mount Vernon.

They will ride three successive days, covering thirty miles each day, to meet the requirements of the army regulations. Col. James E. Kerr, of the Adjutant General's Department, probably will lead the column. The others will be Col. Charles M. Gasky, Walter D. McCaw and Henry C. Fisher, of the Medical Department; Col. W. W. Hart, Superintendent of Public Buildings and Grounds; Maj. Charles Crawford, of the War College; Maj. E. E. Parsons, C. R. Darnall and E. B. Miller, of the Medical Corps; Maj. J. A. Woodruff and William Kelly, Corps of Engineers; Maj. T. L. Ames and E. F. O'Hara, of the Ordnance Department; and Maj. E. Russell and Charles McK. Saltzman, of the Signal Corps.

## EXTRA PAY IS ALLOWED.

Holding Made in Case of Work Done Outside of Contract.

Judgment that work done for the government outside the contemplation of a contract calls for extra compensation from the government is rendered in a decision by Comptroller of the Treasury Downey, awarding to the Henry Vogt Machine Company \$23,115, its claim in full for the extra work.

The company installed under contract a refrigerating and ice-making plant in the Government Printing Office. After completion of the work in strict accordance with the terms of the contract, it was shown, the company was required to make certain changes in the character of the materials furnished. This the company did under protest. The company, through its attorneys, Capt. C. C. Calhoun, made claim for this extra work, and the Public Printer refused payment, the Auditor for the State and other departments upholding him.

Comptroller Downey, however, reversed this judgment.

## BUTT-MILLET FOUNTAIN SOON TO BE DEDICATED

Memorial to Soldier and Artist, Who Lost Their Lives in Titanic Disaster, Has Been Completed.

What will be the nearest thing to a presidential edict that has come from former President Taft since March 4 is expected within a few days in the form of an announcement of the date for the dedication of the memorial fountain to Maj. Archibald W. Butt, U. S. A., and Frank D. Millet, victims of the Titanic disaster.

The fountain, which has been completed, stands in the back of the White House, almost directly south of the Executive office. The monument is representative of chivalry and art, in remembrance of the soldier, Maj. Butt, and the artist, Mr. Millet, who perished in the wreck. The fountain is of Tennessee marble, and lines of simplicity have been followed throughout its construction.

Former President Taft is chairman of the committee handling the fund. Daniel Chester French, sculptor, of New York, and Thomas Hastings, of the same city, collaborated and donated their work in designing the memorial.

The structure does not stand more than twelve feet, but it is pronounced a work of great beauty by authorities.

## COMMITTEE TO REPORT ON SCHOOL WORK DELAY

Anacostia Public Improvement Body Will Be Informed of Result of Conference with Col. Harding.

The special committee of the Public Improvement Association, named at the last meeting of that body by President W. W. Price, to ascertain the cause of the delay in constructing the four-room addition to the public school in that suburb, has about completed its report, which will be submitted when that association meets the early part of next month. This report has created interest because it has necessitated sending the children of this school to the schools in Anacostia. At a recent conference with Commissioner Harding, the committee learned that there is no case that, owing to large amount of work on hand when the appropriation became available, it was impossible to hurry the work of drawing the plans and specifications.

The committee, composed of Edward J. Newcomb, chairman; A. E. McKay, and Francis Wahler, is satisfied with the explanation given at the hearing and believes that the delay in drawing plans and specifications was accomplished as soon as possible. The committee was informed that the building probably would be ready for occupancy by Christmas.

Many residences are in course of construction in Anacostia and others will follow. Edward J. Aiken is erecting a handsome bungalow on High Street, near Mapleview Avenue. The structure will contain six rooms and will cost about \$2,000. Mrs. S. M. Frazier is erecting a brick residence in Valley Place at a cost of about \$2,000. Julius Owens has completed the erection of two brick residences in Minnesota Avenue, near T Street, for William Dewdney. J. W. Sanbury is building a two-story brick home at Seventeenth Street and Good Hope Road. The property of Edward Carrick in Thirteenth Street, near W, has been transferred to Lewis B. Cook and he is now occupying it with his family.

Members of the Eleventh Police Precinct in Anacostia are holding semi-weekly drills for the purpose of becoming more proficient in the manual, in order that a good showing can be made when the annual inspection is held. These drills are held Tuesday and Friday afternoons, and Sgt. M. E. Ready is the drillmaster. Capt. W. T. Anderson superintends the drills.

## PROTEST RAILROAD INCREASE.

Coal Dealers Meet Tomorrow to Discuss Situation.

With the arrival of the first touch of winter's cold, comes the promise from the coal dealers that there will be a jump in the price of fuel, if the increase in commodity freight rates being asked by the railroads is allowed. The dealers will hold a meeting in the Chamber of Commerce rooms tomorrow night to protest against the increase.

## DISTRICT OFFICIALS TO SPEAK.

Mr. Newman and Judge Lattimer Will Address Sunshine Society.

Commissioner Siddons and Judge Lattimer are among those who will address the first open meeting of the season of the District Sunshine and Community Society, which is to be held in the Raleigh Hotel at 2:30 o'clock tomorrow afternoon. Commissioner Siddons will talk on penal servitude, and the work that is being done toward the education of the blind.

"Conservation of the Child" will be Judge Lattimer's topic, which will have special reference to the work of the Juvenile Court in the District of Columbia.

The Sunshine and Community Society, it will be remembered, was instrumental in sending the little blind girl, Evelyn, to an educational institution in New Jersey last spring. Reports from the Arthur Home for the Blind at Summit, N. J., of which Evelyn is an inmate, are decidedly encouraging. The child has developed into a wonderfully intelligent scholar, and is said by her teachers to be one of the brightest children in the school.

## PRINCE ALBERT LEAVES CITY.

Monsieur Kuler Goes to New York to Deliver Lecture.

Prince Albert of Monaco left Washington yesterday for New York, en route to his city principally on the shores of the Mediterranean Sea. The Prince expressed great pleasure in his visit to the Capital, and much admiration of the scientific departments of the government.

The Prince of Monaco will remain in New York until October 23, when he sails for home. He will deliver a lecture October 27, at the American Museum of Natural History.

## Lamar Forfeits Bond.

A bond for \$100 was furnished yesterday by David Lamar on his appeal to the Court of Appeals from the decision of Chief Justice Clegg, dismissing the petition for a writ of habeas corpus. Finding the appeal it is unlikely that any effort will be made to have the defendant returned to New York.
